Confession Page Weekly Time-Waster Tracker

- **Scenario**: Students are spending loads of time scrolling and posting on confession pages, which might not be the best use of their time. This program will track their daily time spent on these activities over a week, and it'll give them a reality check in the form of "roasting" messages based on their usage.
- **Task**:
  - Write a program that:
    - Takes **daily time data** for both reading and writing confessions over 7 days (using arrays).
    - Uses **functions** to calculate the **total time** spent each day, then roasts the user with a customized message based on their time spent.
    - Provides a **weekly summary** that really "lays it down" if they've spent more than 10 hours across the week on confessions.
- **Program Outline**:
  1. **Input**: Each day, ask for the time spent on confession-related activities:
     - **Time spent reading** confessions (in minutes).
     - **Time spent writing** confessions (in minutes).
  2. **Function `calculateTotalTime()`**: Calculates and returns the total time for the day.
  3. **Roast Function `roastFeedback()`**: Delivers a roast based on the daily total time.
  4. **Weekly Summary**:
     - After all 7 days, if the total weekly time is over 10 hours (600 minutes), display a severe roast encouraging them to rethink their life choices.
- **Roast Messages** (in the `roastFeedback()` function):
  - **Daily Feedback**:
    - **For over 2 hours (120+ minutes)**:
      - "Oh bhai, 2 ghante confessions mein laga diye?! Kya NASA mein job lagne wali hai is se? Acha hota yehi time kisi kaam ki cheez pe lagate. Zindagi mein kuch bara karna hai ya bas yahan hi phasna hai?"
    - **For 1 to 2 hours (60-120 minutes)**:
      - "Vah, lagta hai aj sirf confession scroll karne ka irada tha. 1 se 2 ghante waste karke samajhte ho tumhari life set ho jayegi? Thora focus apne real goals pe bhi rakho, shayad kuch ban jao."
    - **For under 1 hour (under 60 minutes)**:
      - "Chalo, kam az kam tumne apni zindagi ke 1 ghante se kam hi barbaad kiye. Isi tarah control mein raho aur asli zindagi mein bhi kuch kar dikhane ka irada rakho!"
  - **Weekly Summary Feedback**:
    - **If weekly time exceeds 10 hours (600 minutes)**:
      - "Kya baat hai, 10 ghante se zyada confessions mein ghusa hua hai? Jawan admi ho ya waqt barbaad karne ki machine? Kuch

productive cheez socho, warna ye confessions tumhari CV mein nahi likhe jayenge!"

- **If weekly time is under 10 hours**:
    - "Wah bhai, lagta hai thoda waqt manage karna seekh rahe ho! Isi tarah apne goals par focus karo, warna ye confession wali duniya tumhe kabhi aagay nahi le jaayegi. Shabash, sahi raho!"
